Knowledge of French, 1996

This map shows the percentage of the Canadian population with knowledge of French. In the 1996 Census, knowledge of French was determined by a question about the ability to conduct a conversation in one or both languages. It should be noted that this question measured language knowledge rather than actual use of language.

0 150 300 450 600 km

Lambert Conformal Conic Projection. Standard Parallels 49°N and 77°N
